

5. Click the [Finish] button on the screen below.

When USB driver installation fails

If automatic installation of the USB driver fails, perform installation according to the following procedure.

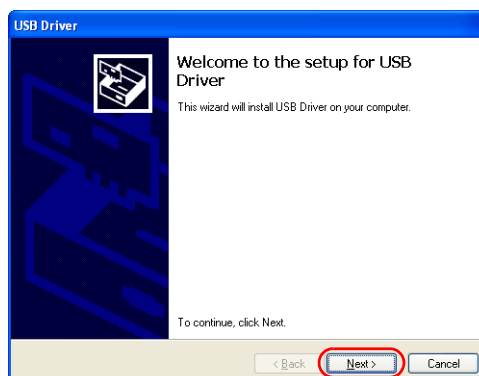

1. Open the following folder using [My Computer] or [Windows Explorer].
C:\MONITOUCH\Common\Driver
2. Double-click "USBDriverInstaller.exe".

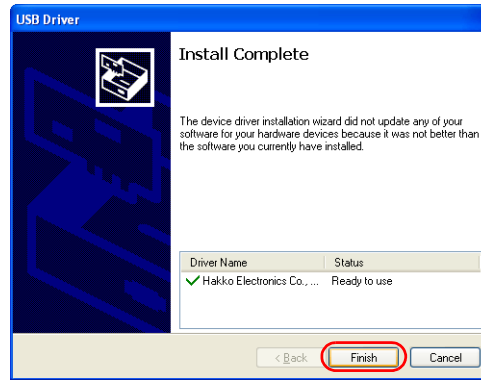

☹️ Depending on your computer, the following dialog may be displayed when using Windows Vista/7/8. Click [Install].

The screenshot shows a 'Windows Security' dialog box. The title bar reads 'Windows Security'. The main text asks 'Would you like to install this device software?'. Below this, it shows a gear icon and the text: 'Name: Hakko Electronics Co., Ltd. Operation Pa... Publisher: Hakko Electronics Co., Ltd'. There are two buttons: 'Install' and 'Don't Install'. Below the buttons, there is a checkbox labeled 'Always trust software from "Hakko Electronics Co., Ltd."' and a warning icon with the text: 'You should only install driver software from publishers you trust. [How can I decide which device software is safe to install?](#)'

3. Click the [Next] button on the screen below. Installation of the USB driver starts.

- Click the [Finish] button on the screen below.

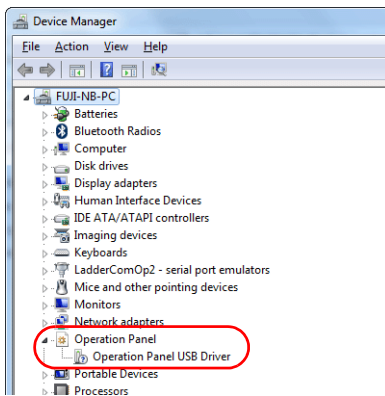

USB driver installation is complete. Transfer the screen program.

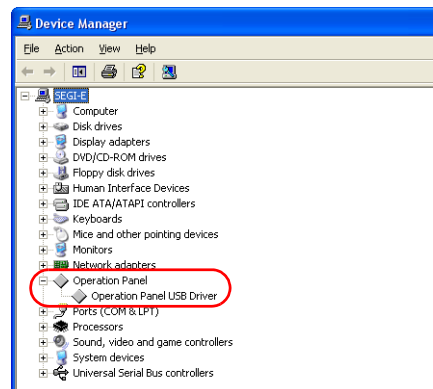

Confirming Installation of the USB Driver

When the driver has been installed successfully, the [Device Manager] window shows "Operation Panel - Operation Panel USB Driver".

- For Windows Vista/7/8

- For Windows XP

This will disappear when MONITOUCH and the computer are disconnected.

If [Other Device] or a mark other than shown above is displayed even while the USB is connected, the USB driver is not recognized. If this happens, uninstall the USB driver and reinstall it.
